Qualified language trainers

lingo art is one of the few language schools that mainly work with **permanently employed trainers**. This offers stability and flexibility. We provide targeted support and training for our trainers to keep their methodology and didactics up to date.

Our trainers are native speakers or have near-native German skills. Many of them have **multiple qualifications** and come from different professional backgrounds. They know from their own experience how companies work and have been teaching for many years.

Details about our team and their professional development can be found [here](#).

Learning together with others is more fun and motivating. We will consider individual scheduling requests and organize the course in a way that suits everyone. Courses in German (foreign language) start regularly on all levels from A1.1 to C1.2.

Our services

Initial consultation and level testing

We will assess your German language skills referring to the CEF, discuss the course options and answer your questions. Subsequently, we will create a detailed proposal for you.

Flexible combinations of course types

We redefine flexibility in a completely new way. For **one-to-one training**, you can choose or combine face-to-face, online lessons or lessons on the phone individually or you can decide from lesson to lesson, depending on your time. Meet your trainer face-to-face, online or just for a phone call.

Course schedule

We are very flexible when it comes to planning your course schedule.

For **individual lessons**, you choose the course day and time that suit you best.

For **virtual open courses**, we ask all participants about possible course days and times and choose the date that suits everyone.

We teach Monday to Friday between 07:30 am and 09:00 pm, if needed also on Saturday.

Schedule changes and cancellations

For individual lessons, you can cancel or postpone lessons free of charge up until 2:00 pm the day before or 2:00 pm on Friday for classes taking place on Monday.

Course length

We generally recommend 3 or 6 months for a course. However, we are happy to meet your wishes.

Our German courses

German courses from CEF A1 to C1

We will gradually build up your German language skills according to the CEF. Participants will learn speaking, listening, reading and writing, plus the basics of grammar and pronunciation.

Individual or virtual group lessons with 3 to 6 participants.

Improve your writing skills

Written communication at work, e-mails and correspondence with customers, business partners or authorities, documentation, minutes, specialist articles. You will learn how to phrase sentences in a stylistically correct way and improve your written communication.

Improve your communication skills

Many learners often learn German quickly, but usually only concentrate on vocabulary, grammar, reading and writing. We train listening comprehension and speaking intensively, and the topics are tailored to participants' needs and requirements.

Communicating at your place of work, making phone calls, explaining and arguing in meetings, presenting and negotiating - we will coach you individually.

Improve your grammar skills

This course will help you to finally understand and correctly use German grammar. We will focus on your weak points or build up your grammar knowledge.

Improve your pronunciation

Good pronunciation is a prerequisite for successful communication in a foreign language. If people have difficulties understanding you, our pronunciation course can provide help. We will improve your pronunciation in just a few appointments. In individual lessons, we will focus on your weak points. Our certified pronunciation trainers provide individual support.
